

Ram Caddsys to distribute ARCHline.XP – Architectural Design Software

1st Oct 2007, Chennai, India: Ram Caddsys Pvt Ltd has partnered with **CadLine Ltd**, Hungary to sell and support their Best-In-Class software system **ARCHline.XP – *The Most Comprehensive and Easy to Use Architectural Design Software.***

CadLine Ltd is a specialist CAD solution provider established in Budapest in 1991. CadLine is a solution driven organization, delivering the highest standard of professional technical solutions through their superior team of dedicated people, who are committed to meeting the customers' expectations.

ARCHline.XP is most powerful and yet very easy-to-use 2D&3D architectural CAD software. ARCHline.XP is based on the three-dimensional solid modeler with Bool operators that enable high-level operations in 3D.

ARCHline.XP has become software of high standard used for complete architectural design. It can be applied at diverse fields like new building design, working drawings with details, solid modeling, photorealistic visualization, terrain modeling, calibration-key plans, town-development, renovation, survey, photogrammetry, etc. Our aim is to provide such a tool that helps the architects at the most diverse fields of their design with the help of an easy-to-use, professional software based on the architects way of thinking. Our goal is to expand our customers' knowledge of CAD products and services, to assist them to produce a real and substantial return from their investment.
